HONDA

LEAD WITH YOUR SENSES

Intuition. Innovation. Vision.

These are the senses that make a leader.

The All-New Accord, equipped with Honda Sensing technology and refined engine performance, puts you at the top of your game.

LUXURIOUS INTERIOR

CRAFTED TO ENGAGE THE SENSES

Every element in the All-New Accord is built with care and attention to detail.

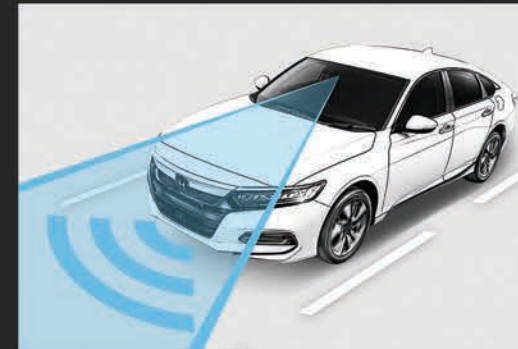

LED HEADLIGHTS

DUAL EXHAUST

Honda SENSING

Your safety is now a suite of new possibilities.

Thanks to Honda Sensing's exclusive set of intelligent safety and driver-assisted features designed to alert you and keep your focus in check while driving.

COLLISION MITIGATION BRAKING SYSTEM (CMBS)

Sets audio and visual alerts if it senses a possible collision and applies brake pressure with the increasing risk.

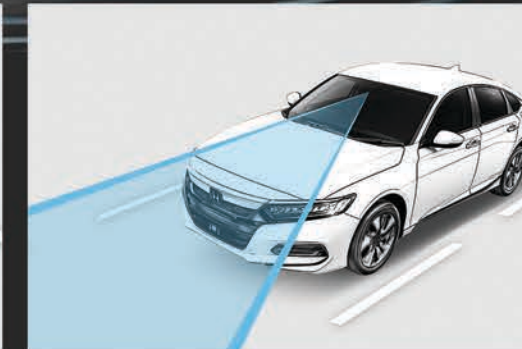

ADAPTIVE CRUISE CONTROL (ACC) WITH LOW-SPEED FOLLOW (LSF)

Sets a following interval as the system monitors traffic ahead of you and adjusts your cruising speed accordingly.

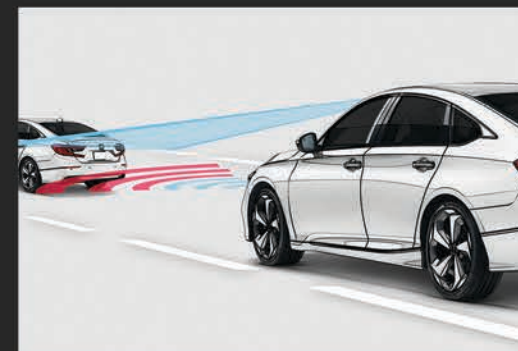

LANE KEEP ASSIST SYSTEM (LKAS)

Alerts you then gently corrects your steering to keep you centered when you drift from the lane.

ROAD DEPARTURE MITIGATION (RDM)

When close to the side of the road without using a turn signal, the system will alert you with vibrations from the steering wheel, and guides you back by correcting your steering and applying brakes.

FORWARD COLLISION WARNING (FCW)

Alerts you when there is a risk of collision with the vehicle ahead.

LANE DEPARTURE WARNING (LDW)

The steering wheel vibrates and alerts you when you're drifting out of the lane without activating the turn signal.

REFINED SENSE OF POWER

The All-New Accord is reigned by the new DOHC 1.5-liter turbocharged engine that delivers more horsepower and torque than ever before. Maximum output is at 190PS at 5,500 rpm and a torque of 260Nm from 1,600 - 5,000 rpm. With an advanced valve control system that masterfully conducts intake, valve lift, timing, and duration with extraordinary accuracy, high fuel efficiency and low emission are achieved at levels never before seen in this category. The result is a powerful beast of an engine that requires modest fuel utilization.
